MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR SECURITY PROFESSIONALS

When it comes to unified password and session management, BeyondTrust is an industry leader with the solutions and expertise you need to secure your organization. Our focus on innovation and service excellence will help take your privileged account management to the next level.

The Password Safe Administration course is ideal for security professionals tasked with administering, monitoring, reporting and configuring your unique BeyondTrust environment. During the course, you will learn how to efficiently administer and configure Password Safe on an ongoing basis.

FLEXIBLE TRAINING OPTIONS: ON-SITE, VIRTUAL OR ELEARNING

This hands-on lab course is available as a virtual instructor-led course or on-site at your location. The course length is two days on-site, or 15 hours over three days virtually. The course is led by a BeyondTrust certified instructor. Earn up to 15 hours of Continuing Professional Education credits (CPE).

This course is also available as an interactive eLearning, available 24x7.

KEY LEARNING OBJECTIVES

- **Initial Configuration** – learn how to configure Password Safe for your environment.
- **Onboarding Systems** – discover new assets in your network and enable their management through Password Safe.
- **Session Usage** – learn to use the Password Safe console to: request & approve sessions, enable session recording, and view sessions & reports.
- **Creating Workflow with Smart Rules** – manage your workflow by adding directories, users, and machines through Smart Rules.
- **Additional Configuration** – configure databases, Remote Apps, and SSH Keys.

GET CERTIFIED BY BEYONDTRUST

Participants who successfully complete the Password Safe Administration training are eligible to take the associated BeyondTrust Certification exam.

Recording and material reproduction rights are not included. Train-the-Trainer courses are also available.
