MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR SECURITY PROFESSIONALS

When it comes to privilege management and application control, BeyondTrust is an industry leader with the solutions and expertise you need to secure your organization. Our focus on innovation and service excellence will help take your endpoint privilege management to the next level.

The Privilege Management for Mac course is ideal for security professionals who need to learn how to deploy, configure, and utilize Privilege Management for Mac in their unique environment. During the course, you will learn best practices for installing and administering Privileged Management for Mac.

KEY LEARNING OBJECTIVES

- Deploying the Software – walkthrough the different ways of installing and deploying the software including deployment to endpoints.
- Configuration and Control – learn how to configure policies and how to create application control through workstyles and application groups.
- Achieve Least Privilege – remove excessive end-user privileges without hindering productivity.
- Elevate Applications, Not Users – maintain security, user productivity, and IT operational efficiency by enforcing least privilege across the Mac environment.

FLEXIBLE TRAINING OPTIONS: ON-SITE OR VIRTUAL

This course* is available as a virtual instructor-led course or on-site at your location. The course length is one day on-site, or 4 hours over two days virtually. The course is led by a BeyondTrust certified instructor, and includes a comprehensive manual. Earn up to 8 hours of Continuing Professional Education credits (CPE).

*This course is taught using product demonstrations only. Recording and material reproduction rights are not included. Train-the-Trainer courses are also available.
ABOUT BEYONDTRUST
BeyondTrust is the worldwide leader in Privileged Access Management, offering the most seamless approach to preventing privilege-related breaches. Our extensible platform empowers organizations to easily scale privilege security as threats evolve across endpoint, server, cloud, DevOps, and network device environments. BeyondTrust gives organizations the visibility and control they need to reduce risk, achieve compliance objectives, and boost operational performance. We are trusted by 20,000 customers and a global partner network. Learn more at www.beyondtrust.com.
