Note: *BeyondInsight and Password Safe fully support each platform for all versions under current support by its respective vendor. New platform versions are generally supported by the next release of BeyondInsight and Password Safe where practicable. Earlier versions may still function with BeyondInsight and Password Safe; however, support for these is best-efforts.*

For more information when using macOS, please see [Privilege Management for Mac BeyondInsight Integration Guide](https://www.beyondtrust.com/docs/privilege-management/integration/pmm-beyondinsight/index.htm) at <https://www.beyondtrust.com/docs/privilege-management/integration/pmm-beyondinsight/index.htm>.
