

BeyondTrust BeyondInsight 22.2

Feature Release – June 14, 2022

BeyondInsight is BeyondTrust's platform for centralized management, reporting, and threat analytics for Privilege Access Management (PAM). It delivers unmatched visibility and control over privileged access activity, simplifies deployment, automates tasks, improves security, and reduces privilege-related risks.

See the release notes for details.

New Feature Highlights

New Feature: Single Sign-On (SSO) from BeyondInsight into U-Series

BeyondInsight 22.2 now lets you delegate users the permission to connect into appliances directly from the BeyondInsight Assets grid, making it easier for administrators to manage BeyondTrust assets.

This new functionality extends the user management of BeyondInsight into the appliance management software, which eliminates the need to manage appliance users separately from BeyondInsight users.

Ease of Use: Discovery Scanning

Continued focus on simplifying administration of BeyondInsight through improved workflows and UI/UX is a key driver to supporting security teams to maintain their privileged security posture.

BeyondInsight 22.2 consolidates discovery scanning into two scan types: Discover Local Accounts (enumerating users only) and Detail Discovery which has customizable scan options. In addition, we have added a new "Run Scan Now" option for completed and scheduled scans, allowing you to quickly re-run a scan at any time. These new options greatly improve flexibility and ensure that discovery scanning is flexible to environmental needs.

About BeyondTrust

BeyondTrust is the worldwide leader in Privileged Access Management (PAM), empowering organizations to secure and manage their entire universe of privileges. Our integrated products and platform offer the industry's most advanced PAM solution, enabling organizations to quickly shrink their attack surface across traditional, cloud, and hybrid environments.

The BeyondTrust Universal Privilege Management approach secures and protects privileges across passwords, endpoints, and access, giving organizations the visibility and control they need to reduce risk, achieve compliance, and boost operational performance.

Our products enable the right level of privileges for just the time needed, creating a frictionless experience for users that enhances productivity.

With a heritage of innovation and a staunch commitment to customers, BeyondTrust solutions can easily deploy, manage, and scale as businesses evolve. We are trusted by 20,000 customers, including 70 percent of the Fortune 500, and a global partner network. Learn more at www.beyondtrust.com.
