

BeyondTrust BeyondInsight 7.2

New and Updated Features – December 1, 2020

BeyondInsight is BeyondTrust's platform for centralized management, reporting, and threat analytics for Privilege Access Management (PAM). It delivers unmatched visibility and control over privileged access activity, simplifies deployment, automates tasks, improves security, and reduces privilege related risks.

See the release notes for details.

Feature Highlights

Flash to HTML5 Migration

Adobe Flash is moving to an 'End of Life' lifecycle stage at the end of 2020. BeyondTrust has embarked on a project to remove Flash from BeyondInsight and other products and move to a more modern user interface technology stack: HTML5.

We announced the completed migration to HTML5 of BeyondInsight for Password Safe users in version 7.0. This move has enabled significant improvements in the performance of BeyondInsight as well as delivering a modern, fast user interface.

There are other components in BeyondInsight now migrated. In version 7.2 the following features are ported over to HTML5:

- PowerBroker for Windows - Session Replay
- PowerBroker for Windows – File Integrity Monitoring

Support for Microsoft SQL Server 2019

BeyondInsight v7.2 now supports Microsoft SQL Server 2019. With this version, customers can configure BeyondInsight with MS SQL Server 2019 as its external database. SQL Server 2019 builds on previous releases to grow SQL Server as a platform that gives you choices of on-premises or cloud environments, and operating system.

About BeyondTrust

BeyondTrust is the worldwide leader in Privileged Access Management (PAM), empowering organizations to secure and manage their entire universe of privileges. Our integrated products and platform offer the industry's most advanced PAM solution, enabling organizations to quickly shrink their attack surface across traditional, cloud, and hybrid environments.

The BeyondTrust Universal Privilege Management approach secures and protects privileges across passwords, endpoints, and access, giving organizations the visibility and control they need to reduce risk, achieve compliance, and boost operational performance. Our products enable the right level of privileges for just the time needed, creating a frictionless experience for users that enhances productivity.

With a heritage of innovation and a staunch commitment to customers, BeyondTrust solutions are easy to deploy, manage, and scale as businesses evolve. We are trusted by 20,000 customers, including 70 percent of the Fortune 500, and a global partner network. Learn more at www.beyondtrust.com.
