

BeyondTrust U-Series 3.5

Feature Release – June 14, 2022

BeyondTrust is pleased to announce that we are introducing a new application with an easier to use interface. We will be releasing the new application in installments. Items that are not yet in the new release can be found in the Legacy App via "LA" in the navigation. With each release, our goal is to bring you an updated UI and improved enterprise functionality. Please see the U-Series 3.5 release notes for additional details.

New Feature Highlights

New Feature: Single Sign-On (SSO) from BeyondInsight into U-Series

BeyondInsight 22.2 now lets you delegate users the permission to connect to appliances directly from the BeyondInsight Assets grid, making it easier for administrators to manage BeyondTrust assets.

This new functionality extends the user management of BeyondInsight into the appliance management software, which eliminates the need to manage appliance users separately from BeyondInsight users.

Additional Improvements:

- Easier to use navigation
- Improved management of the following:
 - API Keys
 - Log File Export
 - Email
 - Health Event Forwarding
 - Date & Time Sync
 - Installed Software
 - Product Licensing

About BeyondTrust
