

# Identity Security Insights 24.03.01 Release Notes

March 21, 2024

## New Features and Enhancements:

- The **Add User** experience has been transitioned from a slide-out overlay to a dedicated full page. This page now features check boxes for access to individual tenants, replacing the previous dropdown menu. The invitation email has also been updated to include the specified applications to which the user will have access.
- Logging into Insights now displays the user's accessible tenants in a tile format.

## Known Issues:

None.

## Notes:

None.
