

Password Safe Integration for ServiceNow 23.2.1 Release Notes

August 24, 2023

Requirements:

- This BeyondTrust Password Safe Integration for ServiceNow 23.2.1 has been certified for production release.
- Requires Password Safe 22.2 or later.

For more information, please see [Supported Platforms](https://www.beyondtrust.com/docs/beyondinsight-password-safe/ps/supported-platforms/index.htm) at <https://www.beyondtrust.com/docs/beyondinsight-password-safe/ps/supported-platforms/index.htm>.

New Features and Enhancements:

- New custom username field - added the ability to utilize a configurable custom field for username.

Issues Resolved:

- Resolved a bug which prevented dialogs from rendering in workspace views. The dialog windows now display in both standard and workspace views as was originally intended.

Notes:

- This version of the Password Safe ServiceNow integration has passed technical and marketing reviews as part of the ServiceNow certification process.
- This integration supports upgrades from any prior release.
- Published to the [ServiceNow Store](#) and listed as *BeyondTrust Password Safe Integration*.
- Certified against ServiceNow San Diego, Tokyo, Utah, and Vancouver releases.
- Certified for GA.
- The SHA-256 signature is: d052fb53cd2836727ab4b976bb49343d77232a0c8037073c23d157498cd6ff79
