

# Privilege Management Cloud 21.2 Release Notes

March 23, 2021

## New Features and Enhancements:

- Added the ability to target Mac Workstyles based on an account filter within the Web Policy Editor.
- Users can now more easily use Azure AD filtering by choosing the appropriate account from the downloaded account list.
- Workstyle filtering on standard groups is now quicker and easier and less prone to errors through manual entry.
- Enhanced navigation by adding clickable links in grids.
- Changed **Add To Policy** buttons to progress spinner buttons to improve feedback to the user.
- Added an administrator account tracking Workstyle to the Windows QuickStart template.

## Issues Resolved:

- A helpful error message is now displayed to the user who fails to lock a policy, if two people attempt to edit it at the same time.
- Resolved issue in which a modal dialog from **On-Demand** page displayed on every page after being triggered.
- Resolved issue in which navigation bar menu flickered when a Workstyle summary was selected.
