

Privilege Management Console 2.4 SR3 Release Notes

August 26, 2021

New Features and Enhancements:

- Upgraded on-premises Privilege Management Console to Privilege Management Reporting version 21.1.
- Implemented GZIP Compression in on-premises Privilege Management Console.
- Changed adapter timeout to default value of 20 minutes.
- Changed adapter retry less aggressively, with a maximum value of 1 hour, with fewer retries per hour.

Note: The above issues resolved apply only to the Windows PMC Adapter.
