## Prerequisites

### Defendpoint Client

- Microsoft Core XML Services 6.0 (XP SP3 only)
- Microsoft SQL Server Compact 3.5 SP2 (Required for using the Activity Viewer)
- .NET Framework 2.0 (Required to run PowerShell audit scripts)
- The McAfee Agent must be installed if you are installing the client with switch EPOMODE=1

### Defendpoint Activity Viewer

- Microsoft SQL Server Compact 4.0
- Microsoft .Net Framework 4.0 Client

## Notes

- The executable version of the client package includes all necessary prerequisites (excluding .NET Framework 2.0), and will automatically install them as necessary.
- The Defendpoint Client executable installer will automatically install Microsoft SQL Server Compact 3.5 Sp2. If you do not wish to use the Activity Viewer, and

do not wish for this prerequisite to be installed, it is recommended that you install the Defendpoint Client MSI installation.

- Microsoft SQL Server 2008 R2 Native Client is required for connectivity with Enterprise Reporting.
