

Android Customer Client 2.2.16 Release Notes

December 9, 2020

New Features and Enhancements:

- Android Accessibility Options now used for full Android device control.
- Chat notifications will now appear if the Android Customer Client App is not in focus.

Requirements:

The BeyondTrust Android Customer Client 2.2.16 works with:

- Android devices running 6.0 or greater.
- Existing BeyondTrust Remote Support installations, version 18.1 or greater.
- BeyondTrust Android Customer Client 2.2.16 utilizes ThinClient Protocol 2.2.

Notes:

- The Android Customer Client is available for download in [Google Play](#).
