

Base 3.1.12 Release Notes

July 14, 2010

This version of Bomgar's Base software resolves the issues listed below. If you have any questions about this release, contact Bomgar Support today.

Requirements:

- Base version 3.1.12 has been certified for all physical appliances (B100, B200, B300 & B400)

Issues Resolved:

- Resolved an issue where changing the Admin Contact Email did not update the SNMP configuration as well
- Resolved an issue where SMTP settings were not always preserved after an upgrade
